

*A Scientific Research and Development company worth more than \$4 billion wanted to provide services to their existing customers who had started setting up business in India due to its vast talent pool of scientists and engineers at relatively low costs
They were looking at a solution to simplify their tax compliances and accounting process.*

Business Challenges:

- » The company wanted to increase its control over the preparation of tax returns and reduce their cost on management of tax and financial risks
- » They saw an increase in the frequency of tax-related audits, due to new levels of enforcement and other factors which were causing an impact on the efficiency of their tax departments.

Solution offered:

- » OATS team spent time to understand their intricate project costing system and got trained in using this system
- » OATS was able to effectively take care of requirements of Big-4 from audit and tax requirements

Client Speak:

*"In last two years, I have never heard any complaint against OATS from our finance department or management team. That is a very significant achievement for an accounts outsourcing service provider".
- CIO of the company*

Benefits:

- » Tax compliance and accounting processes were done accurately and efficiently while maintaining costs as well as meeting deadlines
- » Leveraging OATS' experience of handling subsidiary accounting, exposure to diverse accounting systems, the company was easily able to meet all the tax compliance & regulatory requirements
