

Whether you are operating in your own country or have a subsidiary abroad, it is essential to ensure that your tax affairs comply with certain policies and regulations of the country you are presently operating in as well as your own country.

By consistently monitoring and keeping track of the changing statutory norms and regulations, we aim to reduce risk for the clients and bring high levels of efficiency in our process and to make this easy for you

### Benefits:

- » Accurately and efficiently manage tax compliance, while maintaining costs
- » Extensive experience of handling subsidiary accounting
- » Exposure to diverse accounting systems
- » Enhanced visibility and control through integrated tax operations and filings

### Services we offer:

- » Computation of depreciation and allowances as per tax laws
- » Preparation of statement of total income
- » Preparation of tax returns
- » Tracking carried forward losses and set-off (if any)
